COURSES

- **Introduction to the Python language**, for 9 hours, By King Khalid University
- **Python,** for 3 hours, By Satr
- **Introduction to Data Analytics,** By IBM
- **Data Analysis with R Programming,** By Google
- **Fundamentals of Visualization with Tableau,** By University of California
- **Data Fundamentals,** By IBM
- **Basics Training Excel &Power BI**, for 30 hours, By Experts for Training
- **Python Programming**, for 30 hours, By Experts for Training
- **Introduction To SQL, for** 30 hours, By Experts for Training
- **Data Analysis (Excel, Power BI, SQL, Python), for** 3 Months, By Newtech

SKILLS & ABILITIES

- Microsoft Office(Word, PowerPoint, Excel, Power BI)
- Programming Languages (Java, Python)
- UI Design
- MySQL
- Self Learning
- Teamwork Communication
- Time management
- Problem Solving

CERTIFICATE

- **Certificate Of Completion of Education of Data Science and Analysis**, by Future X

PROJECT

- **Dal(دالَ): A Personalized Outing Recommender Application - Graduation project.**
  The Dal application aims to provide a personalized outing recommendation for entertainment places that align with users' liking; it helps users discover relevant and enjoyable experiences.
- **A comprehensive study on the factors affecting students' academic performance using Python.**
  Project analyzing students' grades using Kaggle data to study the impact of playing hours, parental income, and education levels.
